Bachelor of Science
Major: Worship Leadership
120 credits required for graduation

### Degree Summary
Students who complete the Worship Leadership program are spiritually-formed and capable at planning, producing, and leading corporate worship with confidence and skill. A graduate has vocal skills, as well as training in keyboard, guitar and technology, to work with a broad range of instruments and styles from various historical and global worship traditions. Competent in digital technology and ready to be a leader in collaboration with other worship artists, graduates are likewise experienced in and have a solid biblical foundation for ministry.

### Expected Learning Outcomes
- Develop personal and spiritual disciplines of a Christ follower.
- Develop the skills and habits helpful toward reproducing Christ in others.
- Understand the Scriptures accurately, with the tools to be a lifelong learner.
- Develop a personal worldview that is Christ-centered and culturally aware.
- Follow Christ in love and service, and shepherd people holistically.
- Able to communicate effectively across cultural barriers.
- Develop strategies and systems for building team vision and delivering healthy communication.
- Demonstrate effective time management and personal priorities.
- Presenting the Scriptures accurately with an informed biblical foundation for worship leadership.
- Proficient skills in musicianship and in musical leadership.
- Working knowledge of all aspects of worship production, from theology to technology.
- Strong collaborative skills and methods to work with and through teams of artists, with experience in planning and producing dynamic worship experiences.
- Thoroughly familiar with contemporary worship music, informed appreciation for music from other cultures.
